UP seeks approval to modify Control Point (CP) B002 on the Omaha Subdivision in the State of Iowa by dividing it into two CP's, CP B902 and CP B002. The reason given for the proposed modification is to accommodate a U.S. Department of Transportation (DOT) project to widen Interstate 29, as well as to facilitate yard operations and expedite train movements in the area. The modification will involve the relocation of most signals and some changes in signal aspects currently in service.
